

PEARLS OF JOY...TOLD TO THE HEART

Omar S. Alattas

Stardust...Am I from you or are you from me

Clouds...Are you from here or are you from there

Moonlight...Why am I in twilight-time

What is nectar...little princess is free

Don't get up...It's a dream

The rose touching her breasts...told her I'm here...She told me it's real

What is this...How can I know when no human has been here

Is it love...I don't know...More...My being was trembling before I was even here

Is it in my thoughts...I left them before the summer was even near

Lover's rendezvous...When being's everywhere

Beauty...When I find myself nowhere

I was touched by eternal music...It was never created nor will ever cease to be

I didn't want to lose my life...I'm here

I must be in time...I left myself there

Shut it down...It can no longer be

Without you...Can anything be

Even water can't revive what I have here

Do I leave...What about what's left of life...Do I spend it here...This is the meaning of existence...I can't find anywhere

It's love...My whitest shade of pale

Only safe in your embrace.
